

Plan for the Reconstruction: Modus Operandi

- 1) Search for unknown fragments in secondary sources
- 2) How many books (12 to 15)?
- 3) Decide date ranges for the books
- 4) Gather the fragments into pseudo-books
- 5) Investigate and resolve contradictions arising
- 6) Compose a parallel commentary on sources of material and confidence of the attribution to Cleitarchus
- 7) Write the fragments into a continuous account as much as possible in the deduced style of Cleitarchus
